

ROGER FÍGOLS SOLER

INDUSTRIAL DESIGN & PRODUCT DEVELOPMENT ENGINEER · INDUSTRIAL ENGINEER

+34 615 31 70 38 r.fígols.soler@gmail.com LinkedIn Web Portfolio ↗
Barcelona Area (Barcelona / Vilafranca), Spain

Dual-degree engineer in Product Design and Industrial Engineering from UPC (BarcelonaTech), with experience in process optimization and Lean methodology at **Louis Vuitton**, CAD engineering at **CELO**, and proprietary venture development (**CALYU**). Driven by an entrepreneurial mindset and product vision, I thrive working on project-based teams, committing fully when passionate about the challenge and truly believing in its purpose. Specialized in leveraging **Artificial Intelligence to optimize processes**, automate workflows, and accelerate technical iteration speed.

WORK EXPERIENCE

- **Co-Founder & Product Lead · CALYU** Feb 2026 – Present

Terrassa (Hybrid) · Mobile app for shared apartment living ([calyu.app](#))

 - **End-to-end product development:** Defined feature architecture and user flows for shared expense splitting, chore tracking, and gamification (iOS & Android).
 - **Lean Startup Methodology & Validation:** Applied Eric Ries' framework (rapid Build-Measure-Learn feedback loops), continuous usability testing with real users, and launch to 100+ early adopters.
 - **Incubation & pitch:** Project incubated at **Emprèn UPC** and selected to pitch at the **Santander X Explorer Demo Day (UPC)**.

●

Continuous Improvement Engineer Intern · Louis Vuitton May 2025 – Feb 2026

Santa Perpètua de Mogoda · Luxury leather goods manufacturing plant

- **Lean Manufacturing & 5S:** Implemented workplace organization, process standardization, and operational efficiency methods directly on the assembly floor.
- **Process Automation & AI (Proactive Initiative):** Concurrently engineered an internal automation tool powered by **macros and AI** to generate repetitive technical documentation in a single click, cutting execution time by 75% (4x faster process).
- **Line Optimization & Cycle Times:** Analyzed bottlenecks and eliminated waste to boost throughput while safeguarding high artisanal luxury quality standards.
- **Cross-functional Plant Collaboration:** Partnered daily across **production, maintenance, quality control, and assembly-line operators** to implement lasting operational improvements.

●

Mechanical Engineer Intern (Technical Office) · CELO S.A. Sep 2023 – Jan 2024

Castellar del Vallès · Industrial technical fastening systems & precision hardware

- **3D CAD Modeling & Drafting:** Generated, reviewed, and optimized 2D/3D fabrication drawings in **SolidWorks**, applying manufacturing tolerances and machining criteria.
- **Technical Office – Shop floor liaison:** Communicated directly with production teams to align design specifications with machine capabilities and minimize errors.

●

Production Line Operator · Industrias Català (Incasa) Jul 2022

Vilafranca del Penedès · Chemical and hygiene manufacturing

- Packaging operations, process verification, quality checks, and palletizing on automated production lines.

●

Front Desk Assistant & Waiter · Hotel Estel Jul – Aug 2021

Berga · Hospitality and food service

- Customer service, check-in/reservation assistance at the front desk, and meal service coordination.

EDUCATION

- Master's in Industrial Engineering** 2024 – Jan 2027
UPC – ESEIAAT (Terrassa)
- B.Eng. Industrial Design & Product Dev.** 2020 – 2024
UPC – ESEIAAT (Terrassa)

SKILLS & TOOLKIT

CAD / CAM & 3D MODELING

SolidWorks (2D & 3D) AutoCAD 3ds Max
Sprut CAM

PROTOTYPING & WORKSHOP

3D Printing (FDM/SLA) Ultimaker Cura

INDUSTRIAL METHODOLOGIES

Lean Manufacturing 5S Methodology
Continuous Improvement

AI & DIGITAL TOOLS

Claude Code Antigravity (Google)
Gemini Omni Figma FlutterFlow
Adobe Illustrator Adobe Premiere WordPress

LANGUAGES

Catalan	Native
Spanish	Native
English	B2 · Professional Proficiency
